Bob Slauch	235-5617
Ray Beevers	266-1264
Reed Mersch	472-0774
Josh Nelson	277-3110

SAFETY MOMENT

The flight boxes are the clubs established safety line for flyers as required by the AMA. Make sure all your flying is done within one of those boxes.

FROM THE PREZ

Even though it is snowing as I write this we have had some awesome flying weather pop up here and there. There has at least been enough for me to break a couple wings on hard landings. I'm getting really excited for this year's season and hope you are as well. We plan on having some local fun fly's on a couple Saturdays this year that should be a blast. If you can think of some cool events for us to do during those let me know.

This Saturday is going to be the field clean up. We do this to make sure OUR field looks good. Please make an effort to come. Even if you can only show up for a short while, all help is appreciated. I would like to take a group picture of club members and their airplanes on Saturday. I will use this as the cover to our up and coming Facebook page. So make sure to bring a plane or two. The more members and planes we have the better it will be.

I will wrap this up, but hope to see you all at the club meeting this Tuesday. All ideas and input are welcome. If you have thoughts or ideas about the club this is where they are heard and addressed. Don't forget to spread the word.

Happy Flying
Josh

**Casper Airmodelers Association
Meeting 03/14/15**

Meeting called to order at 6:40 by Josh N.

The Treasury report was postponed until the May meeting since Reed could not attend.

OLD BUSINESS

Field Cleanup: Ray and Bob will be replacing sprinkler heads. The cable donated by Jerry Williams will need to be strung. Steve Kingsolver will be painting the benches and power washing the closure.

Flight boxes: Bob Palmer is looking at PVC to make new flight boxes

Wind Sock: We will be using club funds to purchase a new windsock. It was determined that the old windsock has seen its better days.

NEW BUSINESS

Drone/quad copter festival: We were contacted by John Giantonio with the Casper Sports Alliance about holding a Drone/quad copter event at our field. They would advertise in all the surrounding states. Josh will be setting up a meeting to discuss details.

Fun Fly's: Ray B brought up having more fun fly's just for us locally. Pick a day each month that we can get together and do some fun events. We are looking for some fun ideas on events that can be held.

Safety: It was brought up that many people are not standing in the flight box when flying. The flight boxes are the clubs established safety line as required by the AMA. It is required they be used. We will be adding a safety moment to the Flightline to help us remember some of those things easily forgotten.

Second Wind Sock: Bob P brought up adding a windsock out by the pond in between the pylon barrels. A motion was passed to add a short windsock.

The meeting was adjourned at 7:30. 1st by Tom R and 2nd by Ray B.

Fly In Dates

Casper Airmodelers - July 31st - August 2nd

Please do not fly your aircraft west of the red/white barrels.

FLIGHTLINE is available online at www.casperairmodelers.com
