Safety Officer	Dave Pelton	258-9406	Josh Nelson	277-3110
Contest Director	Tom Rorabaugh	265-1948		

SAFETY MOMENT

An electric starter is always your safe bet when starting your gas engines. At a minimum you should be using a dummy stick or a very thick leather glove. A gas engine can snap back a lot quicker than your hand can. Don't have your fingers there or unprotected when it does.

FROM THE PREZ

Blue skies and windless days are just over the horizon! I hope...Knock on wood. We have some big things coming up for the club and I am very excited about this years flying season. As you should all have heard we are hosting the Western States Drone Rodeo in partnership with WyoCity on June 18th. We will hold drone racing, obstacle course, fun fly and exhibitions. Anything quadcopter and drone is a go!! I would love to see a great turnout from our club members. Even if you don't want to get a quadcopter just come out and enjoy the event. We are looking for volunteers to help out so please let me know if you would like to participate. Info and tickets available for purchase can be found at our website, www.casperairmodelers.com and our Facebook page www.facebook.com/casperairmodelers. Our district President Jim Tiller

has been very helpful promoting the event through AMA and plans on joining us to participate. If you have friends that fly drones in the parks let them know that exclusively for participants of our event the AMA has provided 150 FREE 3 month trial full memberships!! Convince them to come on down!

Our facebook page is doing awesome and is up to 67 followers. If you haven't already go to the page and "Like" it to stay up to date on everything Casper Airmodelers!

See the updated fly-in dates at the bottom of the news letter. A BIG thank you to club member Steve Hunt for providing the most current list. We will update as dates are provided. I hope to see you all on the field soon!

Happy Flying
Josh

**Casper Airmodelers Association
Meeting 04/12/16**

Meeting called to order at 6:45 pm by Reed

OLD BUSINESS

NEW BUSINESS

Clean Up: The Clean Up is scheduled for May 14th. Jobs to focus on are: Repaint lines - Josh N has volunteered to paint taxi lines. Paint benches- we'll approach Steve S to ask if he's interested in painting again. New foam on flight benches- Tom will donate the foam and we'll install on clean up day. Repair- items in need of repair will be addressed on clean up day.

Toilet: Reed has asked R&R Rest Stops to summarize the potty and bring back to service schedule.

Drone Rodeo: We'll need multiple charging tables for the Drone Rodeo along with power strips. We're expecting around 25-50 participants for the event. Stu has contacts that will help proof and design the rodeo obstacles. AMA is sending 150 free 3 month memberships to enlist non-AMA participants. The event will be listed on the National Drone Racing Society event schedule. Josh will be talking with Jon (city of Casper) about pre sale tickets and an event flyer. Stu will promote the event on the Wheels and Wings website. Josh P will be contacting his place of employment for possible use of backup power generators.

ARF in Tower: Where'd it come from?

The meeting was adjourned around 7:30 with a motion from Bob and a second from Tom.

TR Note- there was no fuel raffle- the next meeting will be held at the Airfield.
