SAFETY MOMENT

The other day I was out at the field and a members electric plane leaped off the table right at him while he was messing with the radio. It went from just sitting there to full throttle straight into his legs. Luckily it only caught his pants and he was able to get the idle off before anybody was hurt. This is just an important reminder that when flying electric aircraft it is easy to forget that perfectly quiet is their idol. You need to treat them like a loaded gun. An ignition switch is another important device that could save cuts and maybe even a finger or two.

FROM THE PREZ

I can't believe summer is already dwindling down. This is that time of year I have to decide between flying or hunting. It's a tough choice that reminds me why I love living in Wyoming!

We had a great August. Our National Model Aviation day Fun Fly went great. We were able to raise \$150 between all the flyers. The club matched that. We sent a check for \$300 to the AMA for the Wounded Warriors project. A huge thank you to everybody that was able to

attend and donate. A giant part of clubs like ours getting together is giving back to our communities.

Several of us went up to the Gillette Fly In. It was a great time with decent weather. Best yet I only crashed one plane! It was great to see Casper club members supporting another Wyoming club. A lot of towns see the turnouts for these types of events and use that as justification for a fields existence. Anytime we can get it and support other fields is worth it. Not to mention it is a great time!

On that note...Sheridan is having their Fly In this upcoming weekend. It is always a great time and they cook up one heck of a prime rib! So if you can break away head on up and show them some support.

I'm getting this out a little late, so don't forget that the club meeting is tonight Tuesday the 8th 6:30 at the field. Come by and share some of your ideas for the club.

Happy Flying
Josh

**Casper Airmodelers Association
Meeting 08/11/15**

Meeting called to order at 6:27 pm by Josh N.

OLD BUSINESS

National Air Model Day: The Casper Air Modelers are going to participate in an un-sanctioned event to raise money for the Wounded Warriors Foundation. On Saturday August 15th modelers are invited to bring their warbirds (or any plane if no warbird) to fly. There will be a \$5 donation encouraged with all proceeds benefiting the WWF. The club will match the donations up to a reasonable amount (+/- \$100).

Facebook: The club's Facebook page (thank you Josh!) is gaining some traction and we're around 50 people liking and participating. You're encouraged to like and spread the word about he page as it's a good way to inform people about the club and events.

Fly In: The Fly In had an amazing turnout and more than \$1000 net was raised for the club. Thanks to all that helped and participated!

Weather Station: Talk about he weather station system has been tabled until the next meeting.

NEW BUSINESS

Garbage Dumping: Currently it's up to members to dump the trash cans at the facility. We're going to inquire with the city if it's something they could take on. Until then, please haul any big trash out with you such as empty fuel bottles or airframes etc.

Fly Ins: Buffalo, Sheridan, Gillette and Farmington NM are approaching.

The meeting was adjourned around 7:20 with motion by Pete and 2nd by Abe
There was no fuel raffle.

Fly In Dates

Sheridan Flying Cowboys - Sept 11th -13th

Please do not fly your aircraft west of the red/white barrels.
