FROM THE PREZ

February meeting, Tuesday February 10, Mills community center, 6:30 pm Corner of Midwest & Fourth.

In order to have more members attend monthly club meetings, it is my

intention to see that the business portion be held to no more than 45 minutes in duration.

Please let us all cooperate to make this portion more "member friendly" and not become such a unpleasant burden. I will claim responsibility for part of past fiascos, and hope to have help from you, the club members to make these meeting a better experience for all.

Lets get back to discussions about all modeling aspects, and have more "show & tell" projects show up and displayed. There is a lot of members that would be very interested in seeing how your cold weather projects are progressing.

Please pass on your suggestions, that you would like to see implemented, that will make meetings more "member friendly". Again please remember ANY HELP WILL BE GREATLY APPRECIATED!.

Thanks for your time and suggestions, see you at the February meeting.
