	Ray Beevers	266-1264

<i>Building Instructors</i>	Fred Hildebrand	265-3549
	Dick Meyering	265-9389

April 14, 2009 Meeting Minutes

The meeting was called to order at 6:30 PM in Mills with 9 members and 1 guest present.

Abe K. motioned and Stu R. 2nd that we approve the minutes of the March meeting as published in the newsletter - Passed.

Abe K. motioned and Stu R. 2nd that we approve the treasurers report - Passed.

Old Business:

Tom R. reported on the progress of the slurry seal for the runways at the field. The meeting at the leisure board went well, and it seems like we'll not have much trouble getting the city to help with the project. This makes it so that along with possible AMA funding and Casper Airmodelers kicking in, that we should be able to afford a coating on the runways sometime this summer. Abe K. made a motion with Stu R. 2nd that the Casper Airmodelers set aside \$2500 for this project - Passed.

Reed M. reported that the raffle airplane is almost ready for it's maiden flight. He is going to use his radio for this, and then install the donated radio for the raffle.

Reed M. also reported that he is making progress on the new website at www.casperairmodelers.com. He should have something more put together by the next meeting (as long as his job and other commitments don't get in the way too much.)

Abe K wasn't able to get a map that shows the expansion that the gun club is requesting, so we were not able to have a discussion on this at this meeting.

New Business:

Stu R. offered to host the indoor meetings that we would normally have in the Mills meeting hall at his shop for free. Jerry W. made a motion to put a note in the newsletter and discuss this further at a later meeting.

Tom R. brought up that Jerry W, Bob P and others setup a pump to try to keep the runways from flooding out with the spring snow and rain showers we've been having.

Tom R. was going to get with the city to see about mosquito control for later on in the summer.

May 16 was proposed with the following two Saturdays being backup for our annual field spring cleaning day.

Bruce L. has been looking into getting some jackets and shirts with the Casper Airmodelers logo made up. He needs to get an idea of how many Jackets and shirts will be ordered so he can go to the vendors to see how much it will cost. Not much could be done about this since we only had a few members present for the meeting.

Tom R announced that the next meeting (May) will be at the field.

Lynn F. made a motion and Bob P . 2nd that we adjourn.

The fuel raffle was won by Tom R.

FROM THE PREZ

May 5, 2009

"Spring time," in the Rockies, as usual will not permit any consistent flying schedule. Let us hope better days are ahead.

At the April meeting members voted to support the runway/taxiway sealing with \$2500.00 from club funds. Thanks to all who took time out from their busy schedules to participate in this decision.

Saturday May 16 is the primary day for the flying field clean-up. Back-up days are the May 23, and 30th. If this spring is like last year, weather will force us to use all of May's weekends to finish the task. Trash pick-up will be the major task along with other clean-up items. Please bring gloves, rakes and shovels. We should be finished with the major stuff by around noon. As with past practices, lunch menu will be hamburgers and hot dogs. Thanks in advance for your cooperation, a big turn out will make the morning go fast for all.

Thanks to all who are taking on the job of as flying instructors, and helping the new club members check out their planes and develop their piloting skills. Please continue making safety the prime important factor of training along with continued emphases on

frequency control. It also goes without saying all club members should make the above mentioned number one while on the flight line.

I want to thank our web master Reed M. for all the work he has accomplished on the new web sight. It should be making its debut any day, remember casperairmodelers.com . Reed also deserves kudos for his work on the club electric raffle plane. He did the flight tests last week, reports it's good flyer. Along with assembling and flight tests, he also spent a lot of time compiling both building and flying written reports for Great Planes, who donated the plane and equipment. Thanks also to Dan M., who donated the TX and RX, Gary Z. and Stuart R. for their coordination efforts.

REMEMBER THE MAY 12 MEETING WILL BE AT THE FLYING FIELD AT 6:30

Thanks,
Tom R.

Fly In Dates.

Riverton: June 5,6 & 7

Sheridan: September 11,12 & 13

Reminder

Please do not fly your aircraft west of the red/white barrels.

*FLIGHTLINE will soon be available online at www.casperairmodelers.com
(Please notify Editor Abe Knapp if you would like to receive a copy by mail.)*
