

**Casper Air Modelers**  
**Proposal For Club Pylon Racing**

- 1.) LA Racer 40 from World Models  
Airplane must be stock box and only modification can be the color of the plane or the top and bottom of the right wing colored stripes.
- 2.) OS 46 AX Engine (46 equal or smaller)  
Stock box only with no modifications with exceptions for JB Welding the muffler with the baffle in it.
- 3.) Prop is APC 10x6 ONLY
- 4.) 10% fuel ONLY
- 5.) There will be three heat races of 10 laps each.
- 6.) The first pilot across the START/FINISH line with the least amount of cuts from all three heat races will win.
- 7.) We will hold a pylon race once a month at 10:00 AM on the following designated Saturdays: April 17, May 15, June 19, July 17, August 21, September 18, October 16
- 8.) Pylon races will approximately take 3 minutes of flying time for each heat race. Thus, approximately 1-1.5 hours total.
- 9.) Only four planes flying at one time. Planes will be released at the START/FINISH line to start the race. When the first plane is released, the second will be released within 5 feet, then the third will be released within 5 feet, etc.
- 10.) We will draw random numbers for the four flying slots.
- 11.) Two-pylon course, with two cut judges, and a START/FINISH judge.
