FROM THE PREZ

April 9, 2010

From the Prez.

Thanks to Club Members who supported the Swap Meet. We had a good turn out with lots of modeling articles for sale. There were several out of town sellers, modelers from Sheridan and Loveland CO brought their wares. Although it was not a great money maker for the Club, for the first time "out of the chute" it turned out to be very successful in many ways. "Kudos" to Bruce L. and all who helped him put this "show" on.

Jerry W. has been busy with the Club Pylon Racing, final procedures to be worked out at the April 12th Club Meeting. Your involvement is needed, so please plan to attend. Hopefully the weather will cooperate in getting this activity off the ground during the month of April.

The summer flying season will start soon, now is the time to check out those "Aerospace Machines". It is very important that you pay close attention to those batteries, both TX and

RX. If there is any doubts concerning their health, replace them. The cost of a new pack is a lot cheaper than replacing a airplane. While on the subject of batteries, 2.4 GHz flyers should read the article in the April edition of the AMA Model Aviation Magazine, page 9. It contains a good discussion about brown-out problems that some flyers have experienced.

Plan now on being at the April 12th Club Meeting, Mills community hall, 6:30 pm.

Thanks, Tom R.
